

Recommended Strategy Map

FINANCIAL STABILITY

Goal: Improve individuals' and families' socio-economic outcomes.

Financial Education and Support Services

Job Readiness

Strategies:

- Programs providing education and awareness on financial management, budgeting, saving, investing, and other personal and business finance topics.
- Programs providing direct and indirect assistance to help households receive an increase in savings, a decrease in debt, or access to public benefits.
- Programs to improve access to capital to encourage micro-business development by teaching necessary business skills and increasing owners' ability to expand and stabilize their operations, leading to the growth and sustainability of micro-enterprises.

Strategies:

- Programs providing resources for resume building, interview skills, job search skills, and other services related to gaining employment
- Programs and services aimed at preparing individuals and the under-employed with skills training and educational resources to jumpstart or advance their careers.
- Programs providing logistical support and aid to individuals researching and determining a career path, considering financial capacity and family or other personal obligations.
